car lovers went crazy when the mustang was introduced in 1964 and why not its speed and sleek sporty look have made the car popular for more than forty years let's cruise through the history of the mustang with sports illustrated for kids author michael bradley book jacket

loaded with stunning photography of the entire history of the most iconic muscle car ever produced this collection will blow away any fan

relive Ford's glory days in the muscle car era in this stunning new volume covering the popular and powerful Cobra Jet. Ford's total performance racing program in the early 1960s was the first stone turned in the task of repurposing its image to the youth market. The introduction of the Mustang increased that exponentially, but even in 289 Hi-Po form it was no match for the Pontiac GTO or other muscle cars. Neither was the 1966 Fairlane GT or subsequent 390 Mustang the following year. But when the 428 Cobra Jet Mustang debuted at Pomona for the NHRA Winternationals in 1968, that image evolved from wholesome to fearsome. Cobra Jet Mustangs downed all comers and took the vaunted Super Stock Eliminator crown while introducing a new weapon under the hood to serve as fair warning to what was to be uncoiled at the stoplight by the next model year with the revolutionary Shaker Hood on Cobra Jet equipped Mach 1s. And the striking snake adorning the sheet metal of the midsize Cobra Ford's image makeover was complete. The demise of the muscle car era didn't signify the end of the Cobra Jet as Ford continued the performance reign with the 351 Cobra Jet. The legacy left by Mustang, Cougar, Torino, Cyclone and Ranchero 428, 429 and 351 Cobra Jet powered vehicles is indelible. Mustang Monthly editor Rob Kinnan and muscle car expert Diego Rosenberg bring this history back to life in an all encompassing book that is the first to specifically feature all Cobra Jet cars including the purpose built drag cars of today. Cobra Jet: The History of Ford's Greatest High Performance Cars will hypnotize you as the first and complete history of Ford's most famous engines during the era's peak.

A factory supercharged Ford Mustang had long been on the wish list of muscle car fans, but it took the passion of a single man to make it happen. John Coletti, and that was one name in the Ford Motor Company phone book guaranteed to stir up differing opinions among the huge auto manufacturer's upper management. Maverick or visionary, tyrant or leader, one thing was certain about the mercurial Coletti: he had an unswerving faith in the value of high performance. And after almost single handedly rescuing the Ford Mustang from discontinuation via a covert renegade program, Coletti rode his notoriety into his own throne. Within Ford, he would go on to be head of the elite Special Vehicle Team. But in late 2000, Coletti stretched the boundaries of his own legend.

abruptly canceling the division's highly anticipated 2002 Mustang Cobra while disrupting marketing plans and enraging SVT's network of dealers this is the untold story of how Coletti's performance mandate led to the creation of a car known as the Terminator the 2003 4 Ford SVT Mustang Cobra how did a major American auto manufacturer secretly create a vehicle that turned the performance world on its ear Iron Fist Lead Foot takes readers deep behind the scenes for the answers
