the book the book is an open eyed journey through the mystic world of faith it is an intellectually stimulating account of the birth of religions as animal for definite have no religions and intelligence is the dividing line between man and animal it should be amply clear that religions have risen out the thinking faculty of man these are about god and his creation alright but not from god though human brain itself is a gift from god the book traces the story of religions from the earliest times and tries to reach to the core of all major belief systems of the world towards the end it draws a sort of balance sheet of the religions to form an idea what good and bad these have done to the mankind an effort has also been made to have a peep into their future

for curious readers young and old a rich and colorful history of religion from humanity s earliest days to our own contentious times in an era of hardening religious attitudes and explosive religious violence this book offers a welcome antidote richard holloway retells the entire history of religion from the dawn of religious belief to the twenty first century with deepest respect and a keen commitment to accuracy writing for those with faith and those without and especially for young readers he encourages curiosity and tolerance accentuates nuance and mystery and calmly restores a sense of the value of faith ranging far beyond the major world religions of judaism islam christianity buddhism and hinduism holloway also examines where religious belief comes from the search for meaning throughout history today s fascinations with scientology and creationism religiously motivated violence hostilities between religious people and

secularists and more holloway proves an empathic yet discerning guide to the enduring significance of faith and its power from ancient times to our own

an award winning sociologist s fascinating and excellent history of the origins of the great religions from the stone age to the modern age newsweek in discovering god rodney stark surveys the birth and growth of religions around the world from the prehistoric era of primal beliefs the history of the pyramids found in iraq egypt mexico and cambodia and the great axial age of plato zoroaster confucius and the buddha to the modern christian missions and the global spread of islam he argues for a free market theory of religion and for the controversial thesis that under the best unimpeded conditions the true most authentic religions will survive and thrive many modern biologists and psychologists claim that religion is a primitive survival mechanism that should have been discarded as humans evolved that in modern societies faith is a misleading crutch and an impediment to reason stark responds to this position arguing that it is our capacity to understand god that has evolved that humans now know much more about god than they did in ancient times winner of the 2008 christianity today award of merit in theology ethics

based upon the smyth lectures delivered at columbia theological seminary decatur georgia 1935

was religion created in the minds of men or was it given to us by the ancient gods who demanded our worship who were the ancient gods and why did they come here historical evidence shows that we worked for them and tried to appease them at every turn then at some point they left cultures from the around the world tell their stories through mythology and they are still worshipped in our religions their power over us was so strong that it is still with us today we have been conditioned in a religious way and barranger shows how this conditioning is in certain ways stunting our spiritual growth the author reveals exactly how this slave chip from the gods has programmed us and how we might finally break free

this book first published in 1935 collects together material on the origins of religion from two very different sources south america where the author spent six years studying the religious beliefs and customs of several indian tribes representing different stages of culture and the finno ugrian area where finnish and russian ethnologists had brought to light a new body of facts which formed an important addition to our knowledge of religious life at an early stage of cultural development this book is a key work in the study of comparative religion and is an essential reference source on the origins of religion
